Community Giving

Inspiring Positive Change Around Us

Every day is an opportunity for us to create positive change and make our neighborhoods stronger, better, happier. We award non-profits, charities, team and other community based programs that share our commitment to develop our area's potential and to create richer, more fulfilling lives.

We focus on these areas of giving:

Our Youth Community. We're dedicated to developing and encouraging the health, education, and potential of the young people in our community. By focusing on programs that foster the needs of early childhood and K-12 youth, we hope to nurture and inspire young people to develop their own talents and skills, that will help create positive change in the world around them.

Our Community's Financial Stability. We believe by strengthening the financial literacy of the community we can help gain stability in our own lives so we might create positive change, and enhance the world around us. We contribute to organizations that share that commitment.

Our Art and Cultural Community. By donating to artistic and cultural organizations that encourage greater diversity and awareness, we enrich our community while we inspire the kind of curiosity and innovation that can lead to more positive change.
